

Fairy Tales—Snow Queen

Write sentences that begin with adverbials for how, use commas between clauses, expand noun phrases and use a range of speech punctuation correctly.

Persuasion— Sales pitch / article

Write sentences with a range of punctuation marks that are used effectively. Use compound and multi-clause sentences with a range of conjunctions.

Geography—Greece

To begin with, pupils will name and locate various European capital cities and the Mediterranean region, investigating how the globe has been modelled. In order to answer the question 'Would you like to live in Greece?' we will explore the region's settlements and physical features, compare their climate with Burnley's and enjoy experiencing their diet.

Area

To learn that area is the amount of space taken up by a two dimensional shape or surface. To explore different ways of working out the area of a shape.

Multiplication and Division

To multiply and divide by 3, 6, 9, 7, 11 and 12 in a range of problems, making links and using representations. They will also investigate multiplying and dividing by 1, 0 and by itself.

Science—Electricity

Children will explore how electricity is used in daily life. They will explore different conductors and insulators and use this understanding to build successful, simple electrical circuits.

RE— Who do we follow?

Looking at how and why people have served God, children will review accounts of prophets from the Old Testament through to modern day Christians who have devoted their lives to service.

Music— Musical Theatre

Children will explore the history of musical theatre and place various movements of theatre on a time line. We will identify the purposes of different styles of songs in musicals. Children will rehearse and perform familiar songs from productions.

Curriculum Enrichment

Greek food tasting.

Class: 4LN

Autumn 2

Curriculum

French—School Days

In this unit, children will learn the days of the week in French and explore how to say different subjects and classroom stationery in French.

PE—Invasion games— Basketball

Children will explore different ball passes and invasive techniques through games to apply tactics in order to outwit opponents, developing encouragement skills.

Y4 Swimming on Friday afternoons

PSHE—Health and Wellbeing

Children will learn how to identify different risks and dangers in their environment and make appropriate decisions to keep themselves safe. They will learn how to respond to accidents, when to recognise that a situation is an emergency and how to deal with this and call for help.

Computing—Networks

In this unit, we will explore how digital devices are made up of several parts and how specific parts of a device can be used to contact other devices. Children will look at the benefits of being able to contact other devices and use computer networking safely and effectively.

Art— Funny Faces

Drawing inspiration from the work of Picasso, pupils will experiment with drawing techniques to create a self-portrait in this style. Children will also explore using alternative media to produce portraits such as charcoal, crayons and pastels,
